[Toffler Associates](#) is a strategy consulting firm focused on securing the future for its clients and society. By better understanding the forces driving change, Toffler Associates helps public and private sector clients create enduring success by preparing for what the future will demand.

The firm's work is not academic – its consultants provide actionable recommendations that help leaders create step-by-step plans that position their organizations to thrive moving forward. For each client, Toffler Associates combines its forward-looking methodologies, in-depth industry and other knowledge, and powerful insights from the firm's network of renowned global experts to turn analysis into action. By connecting those dots, the firm creates a true future perspective and clients look back from that vantage point to plot a clear, smart path ahead.

Toffler Associates' work gives clients the confidence and clarity of purpose that can come only from a firm command of what lies ahead. For private-sector clients, that translates into strategies that drive top-line growth. For public-sector clients such as federal agencies, associations and not-for-profit institutions, it strengthens their ability to use resources more effectively and build lasting public.

Founded in 1996 by world-renowned futurists Alvin and Heidi Toffler and with consultants located across the U.S., the firm maintains offices in Manchester, MA and Reston, VA.
